The **Automatic FD 386 Document Folder** folds up to 17,000 pieces per hour! **Fully automated fold plates** provide one touch set-up of the 18 pre-programmed or 27 custom folds that can be stored into memory. The FD 386 folds up to 500 sheets in as fast as 2 minutes and holds the folded pieces on its patented **Telescoping Conveyor System with adjustable stacker wheels**. The **large full-color touchscreen control panel** allows operators to walk up and start folding with little to no instruction. The optional patented **Multi-Sheet Feeder** allows up to 4 stapled or unstapled sheets to be folded at one time. The FD 386 can also be combined with the optional **V-Stack36i Vertical Stacker,** which stacks up to 22" of folded documents.

Color Touchscreen Control Panel
Utilizes easily-recognized symbols in place of text

Adjustable Stacker Wheels
Neatly stack different paper sizes and fold types

Optional Multi-Sheet Feeder
Up to 4 stapled or unstapled sheets can be folded at once

Telescoping Conveyor System
Extends from 14" to 36" in length and holds up to 500 folded pieces

Optional V-Stack36i Vertical Stacker
Aligns with outfeed to vertically stack up to 22" of folded documents for further processing
